Forord

Blandt Peter Møllers efterladte værker finder man en stor mængde musik til liturgisk brug – salmeforspil og ledsagesatser. Ofte er disse satser nedfældet på bagsiden af større værker sammen med skitser eller lignende. Men man finder også sirligt renskrevne satser, der måske har været tiltænkt undervisningsbrug. Stilistisk svinger både forspil og ledsagesatser mellem en klichéfylt romantisk stil og en meget grænsesøgende og eksperimenterende stil.

Jeg har i denne udgivelse medtaget de ledsagesatser af Peter Møller, som jeg synes understøtter og inspirerer salmesang bedst. Jeg har dernæst suppleret med mine egne satser, så samlingen er blevet ”komplet” og indeholder forskellige ledsagesatser til 100 danske kernesalmer. I nogle tilfælde har jeg redigeret i Peter Møllers satser, og nogle gange har jeg brugt elementer eller idéer fra en af hans satser som forlæg til en ny. Det kan være, fordi Peter Møllers musik er mangelfuld eller ukomplet – eller fordi jeg skønner, at den er for kompliceret eller for knudret. Alt er naturligvis gjort med respekt for Peter Møllers kompositioner.

Hvis der over en sats er anført en lille stjerne efter initialerne PM, er det fordi, jeg har været inde og lave en korrektion. Hvis både PM og LTE er angivet, er det fordi, vi er nogenlunde lige om arrangementet.

Samlingens tonearter følger den senest udkomne koralbog (2003), og de fleste salmer bringes også i en dybere toneart.

Et par af salmerne bringes ”komplette” med ledsagesatser til alle vers – en enkelt, *Et barn er født i Betlehem*, endog i to versioner. I disse salmer er versangivelsen noteret over de enkelte satser som et forslag.

Men her – som i alle samlingens satser – er det vigtigt at pointere, at man kan tappe ind og ud mellem koralbogen og denne samling efter egen smag og lyst. Dog er den grundlæggende tanke med udgivelsen, at hver enkelt salme bringes med to eller flere harmoniseringer, hvor den første ofte er den enkleste, og den sidste er den fyldigste – der måske vil egne sig bedst til salmens sidste vers.
